The *North Carolina Association for Research in Education* (NCARE) has proudly served researchers and practitioners in North Carolina since 1974. We represent educational professionals in higher education, local school districts, and the state agency. Each year we host an annual conference to showcase the research currently be conducted in our state. In addition to research presentations, we also provide pre-conference workshops to support the research efforts in North Carolina. This year our [NCARE Conference](#) is being held on February 28- March 1 on the campus of the University of North Carolina at Charlotte.

NCARE is a self-supporting organization that mainly relies on the annual membership dues and conference registration receipts to support our work. We are contacting organizations in North Carolina who represent the research community and share an interest in the efforts of our members and conference attendees to consider being a NCARE sponsor.
